

Nextef Status

CERN SLAC WEB Meeting

Feb 27, 2009

Shuji Matsumoto, KEK

Nextef Operation in February

- Continue the run for T18_VG2.4_Disk under 252ns, >100MV/m ,50pps.
- We have klystron Gun arcings sometimes.
- Daytime operation will be stopped for several days in March due to the work for Shield-B construction.
- Quad Acc Structure will be ready to install in April.
